

Sunday 11th September

Our very first "First to find" -
all the thrill of the
empty pages and the
untouched cache!! There
were some tricky clues in
there, but with the help
of 'Hyspale' ~~and~~ (here for
historical expertise) and Mr B.
back home on the net - we
got here eventually. Brilliant
series - enjoying every
minute of it! - now on
to find 1 and 3 - still
struggling on with those.
May be time to celebrate

at the pub!

Took doorstopper, left some
free cinema passes.

beautiful... a part

obscuring the

atmospheric,

with the shepherds

Our first attempt was cut short as we needed to do research for "Royston Reigate". After checking co-ords with Brambler, we set off today to finish it. Success! Rain clouds are brewing so need to get back up the hill to get reg'd info for Amphora.

Enjoyed this one - hopefully it won't take us another two years to finish the series!

Thanks
