

Reading Group

Life on our planet as you've never seen it before.

A team of astronauts in the International Space Station collect meteorological data, conduct scientific experiments and test the limits of the human body. But mostly they observe. Together they watch their silent blue planet, circling it sixteen times, spinning past continents and cycling through seasons, taking in glaciers and deserts, the peaks of mountains and the swells of oceans. Endless shows of spectacular beauty witnessed in a single day.

The fragility of human life fills their conversations, their fears, their dreams. So far from earth, they have never felt more part - or protective - of it. They begin to ask, what is life without earth? What is earth without humanity?

**We shall be meeting to discuss this book on
Wednesday 11th June 2025, in the Church Lounge at
7.30 p.m.. Further details from Shelagh Dixon, tel.
2306940.**
